Dear Henry,

Thank you very much for presenting your lecture on Anxiety and Sleep Disorders at our first Diploma Course Module in Geriatric Psychiatry. The resident evaluations were generally satisfactory. There were some opinions that the lecture was somewhat overinclusive, resulting in perhaps not enough time or emphasis on practical management of sleep problems and not enough time on anxiety disorders. That being said, the lecture certainly was comprehensive, with an in-depth background of sleep physiology.

Thank you very much again for your contribution to our Module.

Sincerely yours,

*Interesting presentation. I would have liked more practical real world
 management of sleep problems in psychiatry. Covered a lot but too much
 to digest, I felt.*

COMMENTS: Good knowledge but lecture craps too much in. Prefer a focus
on practical application in sleep, most of points of each area.
& useful summary of medications.
