Dr. Henry Olders
Jewish General Hospital

Dear Henry,

I would like to thank you for participating as a group leader for the Superintegrated small group sessions of Unit 8 held on October 28th and November 8th, 2002. With increasing demands on your schedule these days, I appreciate the time you have taken to prepare for and facilitate these sessions. These small group experiences are a valuable teaching method that is highly regarded by students, and which your participation has helped to make successful.

For your information, I am also providing student feedback regarding your performance as a group leader. Responses to the questions were graded as follows: 1=strongly disagree/poor, 2=disagree/fair, 3=undecided/good, 4=agree/very good, 5=strongly agree/excellent. Next to each question, you will find the mean±SD (range) scores for all the group leaders under the heading Overall Scores, as well as your own mean scores.
