Dear Dr. Olders,

I wish to sincerely thank you for your excellent presentation on Monday evening, November 24<sup>th</sup>. I have received very positive comments from some of the attendees, particularly with regard to your willingness to answer their questions.

Family members and people suffering from mental illness question us on a regular basis about the type of treatments available to them. They want and need information. It was very satisfying to help to meet that need by bringing this interdisciplinary panel to them.

I hope that we can continue to benefit from your experience and expertise in the future, and I wish you continued success

Sincerely,

Francine Waters,  
Program Co-ordinator
