Dear Dr. Olders,

On behalf of the CLSC René-Cassin/Institute of Social Gerontology of Quebec and all of the members of the Professionals Networking for Caregivers, I would like to thank you for your participation in our conference series for caregivers entitled 'Understanding Illness'. Your presentation on '**Depression in the Elderly**' captured the spirit of these series of talks by enlivening a focused reflection on the impact of depression on the elderly and the various psycho-social dimensions of care experienced by caregivers and their care-receivers with respect to depressive states. We are grateful for your ongoing professional commitment to the betterment of elderly care and informed support for caregivers.

Sincerely,

Pam Orzeck
