Dear Dr. Olders,

On behalf of the members of the Drop-in Centre for Holocaust Survivors I want to thank you for your thought provoking and informative lecture entitled "The Psychology of Staying Young."

The feedback from the members has been excellent. The lecture fit within our mandate of empowering Holocaust survivors with stimulating information and coping skills to enhance the quality of their lives. Your lecture achieved this goal admirably.

I thank you and will call upon you again in the future.

Sincerely,

Myra Giberovitch, M.S.W., P.S.W.
