Dr. Henry Olders  
Psychiatry Department  
Sir Mortimer B. Davis - Jewish General Hospital  
3755 Cote Ste-Catherine Road  
Montreal, Quebec

Dear Dr. Olders:

ITPM has run its course for another year. You have been an integral part of the whole program and, more specifically, as far as we are concerned, the backbone of the second-year component.

Feedback from students is that they appreciate and enjoy the course. Were it not for the small group experience, as well as the practica, the course would not have had the impact which it has had. We realize that you have given generously of your time and energy and wish to reiterate our gratitude for your participation. We have sent a letter to the Dean identifying the major role which you have played in this program.

We recognize that there are weaknesses in the course that should be dealt with in succeeding years and rely heavily upon you to provide us with specific suggestions in this regard. To this end, we have enclosed an evaluation form which we are asking you to complete and return to us. We have enclosed an envelope with the return address for your convenience.

Many thanks again.

Sincerely yours,

A handwritten signature in cursive script that reads "Anne Biggs for".
