Dear Dr. Olders:

Re: Dr. K. Dunn et al OMHF #60

INSTITUTIONAL STAFF DEVELOPMENT IN LONG-TERM CARE: TEACHING BEHAVIOUR THERAPY SKILLS.

and

Dr. R. Holden OMHF #13

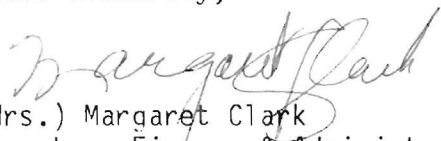

ENHANCEMENT OF MENTAL HEALTH EVALUATION USING COMPUTERIZED PSYCHOPATHOLOGICAL ASSESSMENT.

You will recall that you carried out appraisals of the above research grant applications, and asked that you be informed of the outcome of the reviews.

The proposals were not recommended for support by the review committee. A summary of the comments have been sent to the applicants to assist in improving the proposal for submission at a future competition.

Your appraisals were very helpful to the review committee in its deliberations on these proposals.

Yours sincerely,

(Mrs.) Margaret Clark
Director, Finance & Administration
