Dr. H. Olders
Department of Psychiatry
Jewish General Hospital

Dear Doctor Olders

Your time and effort spent in reviewing and commenting on the manuscript, entitled "Dementia With Lewy Bodies: An Emerging Diagnosis", that we submitted to you for the Saul Wilner Prize for the best unpublished clinical paper, was very much appreciated. The residents work very hard on their submissions and value the constructive and helpful feedback that they receive.

Thank you very much for your contribution in making this endeavour a successful one.

Sincerely,

Annette Granich, MD, FRCPC
Program Director, Postgraduate Education
