Dear Henry:

Thank you for your kind letter of the 6th June. I would also like to thank you for all your time and effort in representing the Residents on the Hospital's Centre Board during the last three years.

You have been very helpful to the Board on the matters for which you took responsibility such as the purchase of the Hospital's new telephone system, not to mention your principal function of Residents' representative. I have certainly enjoyed getting to know you and working with you on the Board.

I hope that you will have an interesting and enjoyable career and I send you all my best wishes in your endeavours.

Yours sincerely,
