

M E M O R A N D U M

TO : Day Care Team,
C.P.C.

FROM : Pierre Leichner

DATE : August 3rd, 1988

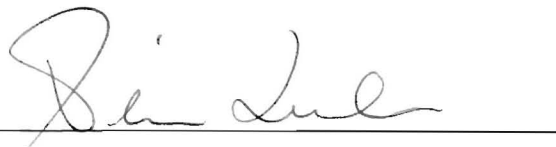

SUBJECT : Annual report

Indeed, better late than never. I wish to extend my thanks and congratulate the C.P.C. Day Care team for the excellent report, which was recently submitted. The report shows the high quality and quantity of work this team performs. I believe that the work done in creating this report will also go a long way in facilitating the work that will be required in preparing the documents for the reorganized services in C.P.C.

There are only two areas in which I would encourage the team to develop further, over the next couple of years:

- 1° Evaluation and clinical research. It would appear to me that with the well established multiple therapeutic activities that are ongoing, the members of the team could relatively easily start carrying out evaluative protocols to justify and improve these activities as well as provide answers to research questions. To help with this I gladly offer you my help, that as well as that of our evaluation and applied research team.
- 2° Involvement of volunteers and self help organizations. I am not sure what effort you have made in this area, up to date, however we are now recruiting a person to a post whose priorities will be to help programs to develop and increase volunteers support, this person will be available to your team as a resource.

Once more, thank you and keep up the good work.

Pierre P. Leichner, M.D.
